

Help Stop Missouri Bluffs Housing complex.

The University of Missouri and Whittaker Homes want to build a subdivision by getting the St. Charles County Zoning Commission to grant a zoning change from Agriculture to

Medium and High – Density Housing.

This would allow 315 single-family houses and 120 apartments.

Attend the Wednesday February 21 meeting, 7:00 PM 100 North 3rd Street, St. Charles MO.

Email your objections to the Missouri Bluffs housing development to ctypnz@sccmo.org

Visit KatyLandTrust.org for all of the information regarding the proposed development and a plat of the actual subdivision.
